

ENVIRONMENTAL DISCLOSURE LABEL

SOUTH JERSEY ENERGY COMPANY

Electric suppliers and distribution companies are required to provide customers with a disclosure label. The label enables customers to look at the energy sources, air emissions, and information about the supplier's company in order to make a more informed choice of a power supplier.

<p>Generation Price</p> <p>Average price per kWh at different levels of use. Prices do not include regulated charges for customer service and delivery.</p>	<table border="1" style="width: 100%; border-collapse: collapse; text-align: center;"> <thead> <tr> <th></th> <th colspan="4">Commercial - Avg. <p>Labor Information</p>	<ul style="list-style-type: none"> • Less than 1% of the electricity associated with South Jersey Energy Company came from power sources that used replacement labor during disputes between 1/1/19-6/30/19. • 22% of the electricity associated with South Jersey Energy Company came from power sources with union contracts with their employees 1/1/19-6/30/19. 																												

NOTES:

1. Electricity customers in New England are served by an integrated power grid, not particular generating units. The above information is based on the most recently available information for the NEPOOL Generation Information System. South Jersey Energy Company procures all of its electricity supply through system power contracts from the system, not from specific generating units.
2. See reverse side and your Terms of Service for further information on this label. For additional information, you may contact South Jersey Energy Company at 609-568-9028, the Massachusetts Department of Public Utilities Consumer

Division at 1-877-866-5066, www.mass.gov/dpu, or the Massachusetts Division of Energy Resources,
